

ASOCIACIÓN DE ESTADOS DEL CARIBE

**XXIV REUNIÓN DEL COMITÉ ESPECIAL PARA LA REDUCCIÓN DEL RIESGO DE
DESASTRES**

PUERTO ESPAÑA, TRINIDAD Y TOBAGO, 21 DE OCTUBRE DE 2016

PRESENTACIÓN SOBRE EL PROGRESO DE LA EJECUCIÓN DEL MARCO DE SENDAI

**POR SR. RAÚL SALAZAR, OFICIAL DE PROGRAMA DE LA OFICINA DE LAS NACIONES
UNIDAS PARA LA REDUCCIÓN DEL RIESGO DE DESASTRES (UNISDR)**

Implementation of the Sendai Framework for Disaster Risk Reduction in the Caribbean region

Raul Salazar, UNISDR
21 October 2016

ACS Special Committee for Disaster Risk Reduction

The Sendai Framework for Disaster Risk Reduction (Sendai Framework)

1 OUTCOME

The substantial reduction of disaster risk and losses in lives, livelihoods and health and in the economic, physical, social, cultural and environmental assets of persons, businesses, communities and countries

1 GOAL

Prevent new and reduce existing disaster risk through the implementation of integrated and inclusive economic, structural, legal, social, health, cultural, educational, environmental, technological, political and institutional measures that prevent and reduce hazard exposure and vulnerability to disaster, increase preparedness for response and recovery, and thus strengthen resilience

Understanding disaster risk

Investing in disaster risk reduction for resilience

Strengthening disaster risk governance to manage disaster risk

Enhancing disaster preparedness for effective response, and to “Build Back Better” in recovery, rehabilitation and reconstruction

The Sendai Framework for Disaster Risk Reduction (Sendai Framework)

7 TARGETS

DISASTER MORTALITY BY 2030

of AFFECTED PEOPLE BY 2030

ECONOMIC LOSS BY 2030

**INFRASTRUCTURE DAMAGE
BY 2030**

**DRR NATIONAL/LOCAL
STRATEGIES BY 2020**

**INTERNATIONAL
COOPERATION BY 2030**

**MULTIHAZARD
EWS + RISK
ASSESSMENTS BY
2030**

Sendai Framework for Disaster Risk Reduction: 2015-2030 (A/RES/69/283 - June 2015)

- **Goal** focuses not only on **reducing existing risks** also on **preventing new risks** and **strengthening resilience**
- Seven **Global Targets**
- The reduction of disaster losses is assessed **relative to the size of a country's population and economy**
- Outcome Targets are objective and measurable allowing **international benchmarking of progress** relative to a quantitative baseline 2005-2015
- Explicit links to the **2030 Agenda for Sustainable Development** and to the **UNFCCC**

Implementation of the Sendai Framework for Disaster Risk Reduction at the **global** level

- ❑ Definition of Global Target Indicators and Sendai Monitor indicators
- ❑ Alignment with the indicators of the Sustainable Development Goals
- ❑ Development of an online monitoring system that enables reporting every two years
- ❑ **By 2017: Readiness review** by each country to be presented at the Global Platform for DRR in May 2017 in Mexico
- ❑ **By 2019:** Each country is requested to develop its **baselines related to the Global Targets**
- ❑ This will among other required the development or update of national disaster loss databases (Standards under development)
- ❑ **By 2020:** Development of **national disaster risk reduction strategies**

Target

Goal / Target

Implementation of the Sendai Framework for Disaster Risk Reduction at the **regional** level

- ❑ Ministerial Meeting in Paraguay June 2016
(Declaration of Asuncion adopted)
- ❑ Regional Platform for DRR in March 2017 in Canada
(Development of a DRR Action Plan for the Americas region)
- ❑ Alignment of regional DRR Frameworks with the Sendai Framework for DRR:
 1. Caribbean Comprehensive Disaster Management Strategy (CDM)
 2. Central America DRR Framework (PCGIR)
 3. Development of a DRR Strategy in South America

Implementation of the Sendai Framework for Disaster Risk Reduction at the **Caribbean** level

- **Harmonization of the reporting and monitoring framework** of the **CDM** Strategy and **Sendai** Framework so that countries only report one time while inputs are feeding into both systems
- Alignment of CDM work programmes with the Sendai Framework
- Creating a **private sector** network in the Caribbean, Three national ARISE launches
- Implementation of WISS in the Caribbean: **Safe School** Forum (Ministerial Meeting), Vulnerability assessments in 6 countries (18 schools in total)

Implementation of the Sendai Framework for Disaster Risk Reduction at the **Caribbean** level

- Planned meeting on **vulnerability reduction** at the end of 2017 – jointly organized with ACS (activity is part of the Plan of Action of Habana)
- Supporting efforts towards **enhanced EWS** in the Caribbean region as well as **Seismic Risk Reduction** (Road Map on Seismic Risk Reduction for the Caribbean developed in September 2016)
- Elaboration of 12 Disaster Risk Reduction country documents

Support implementation of the Sendai Framework for Disaster Risk Reduction – support by ACS

- Align and link existing and new DRR activities to the Sendai Framework for DRR
- Support countries in the implementation of the seven global targets of the Sendai Framework with focus on:
 - Definition of baselines
 - Reduce the number of affected people (*e.g. reducing vulnerability*)
 - Development of DRR strategies at the national level
 - Increase the availability of and access to multi-hazard early warning systems and disaster risk information and assessments
- Engaging in participation in three critical processes OEIWG, RP, GP (Mexico)

Thank you

Raul Salazar
