- Electronic payment

Why an country should implement a CCS

- To increase tax and duties revenue
- To increase security and safety
- Trade Facilitation
- To become a more attractive port and maritime community
- To the enhance logistic performance of the country

Advantages for stakeholders

- Port:
 - Terminal Optimisation du terminal
 - Port Statistics
 - Port Tax and duties
- Douanes:
 - No manual
 - Base for 'risks targeting'
 - Increase duties and tax perception
 - Trade facilitation

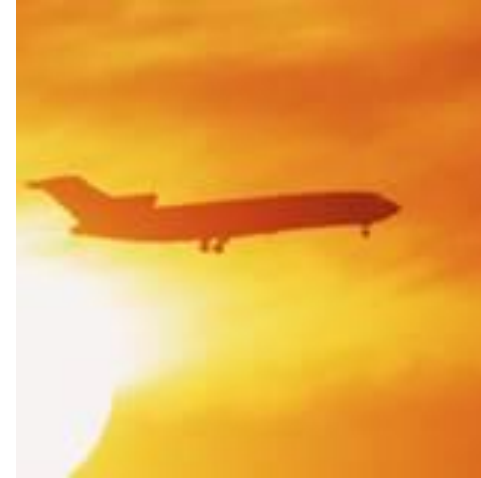

- Government:
 - Phytosanitary demand
 - Import and export licencing

- Port Operators :
 - Procedures Optimisation
 - Increase Productivity
 - Reducing Waiting time
 - Tracking

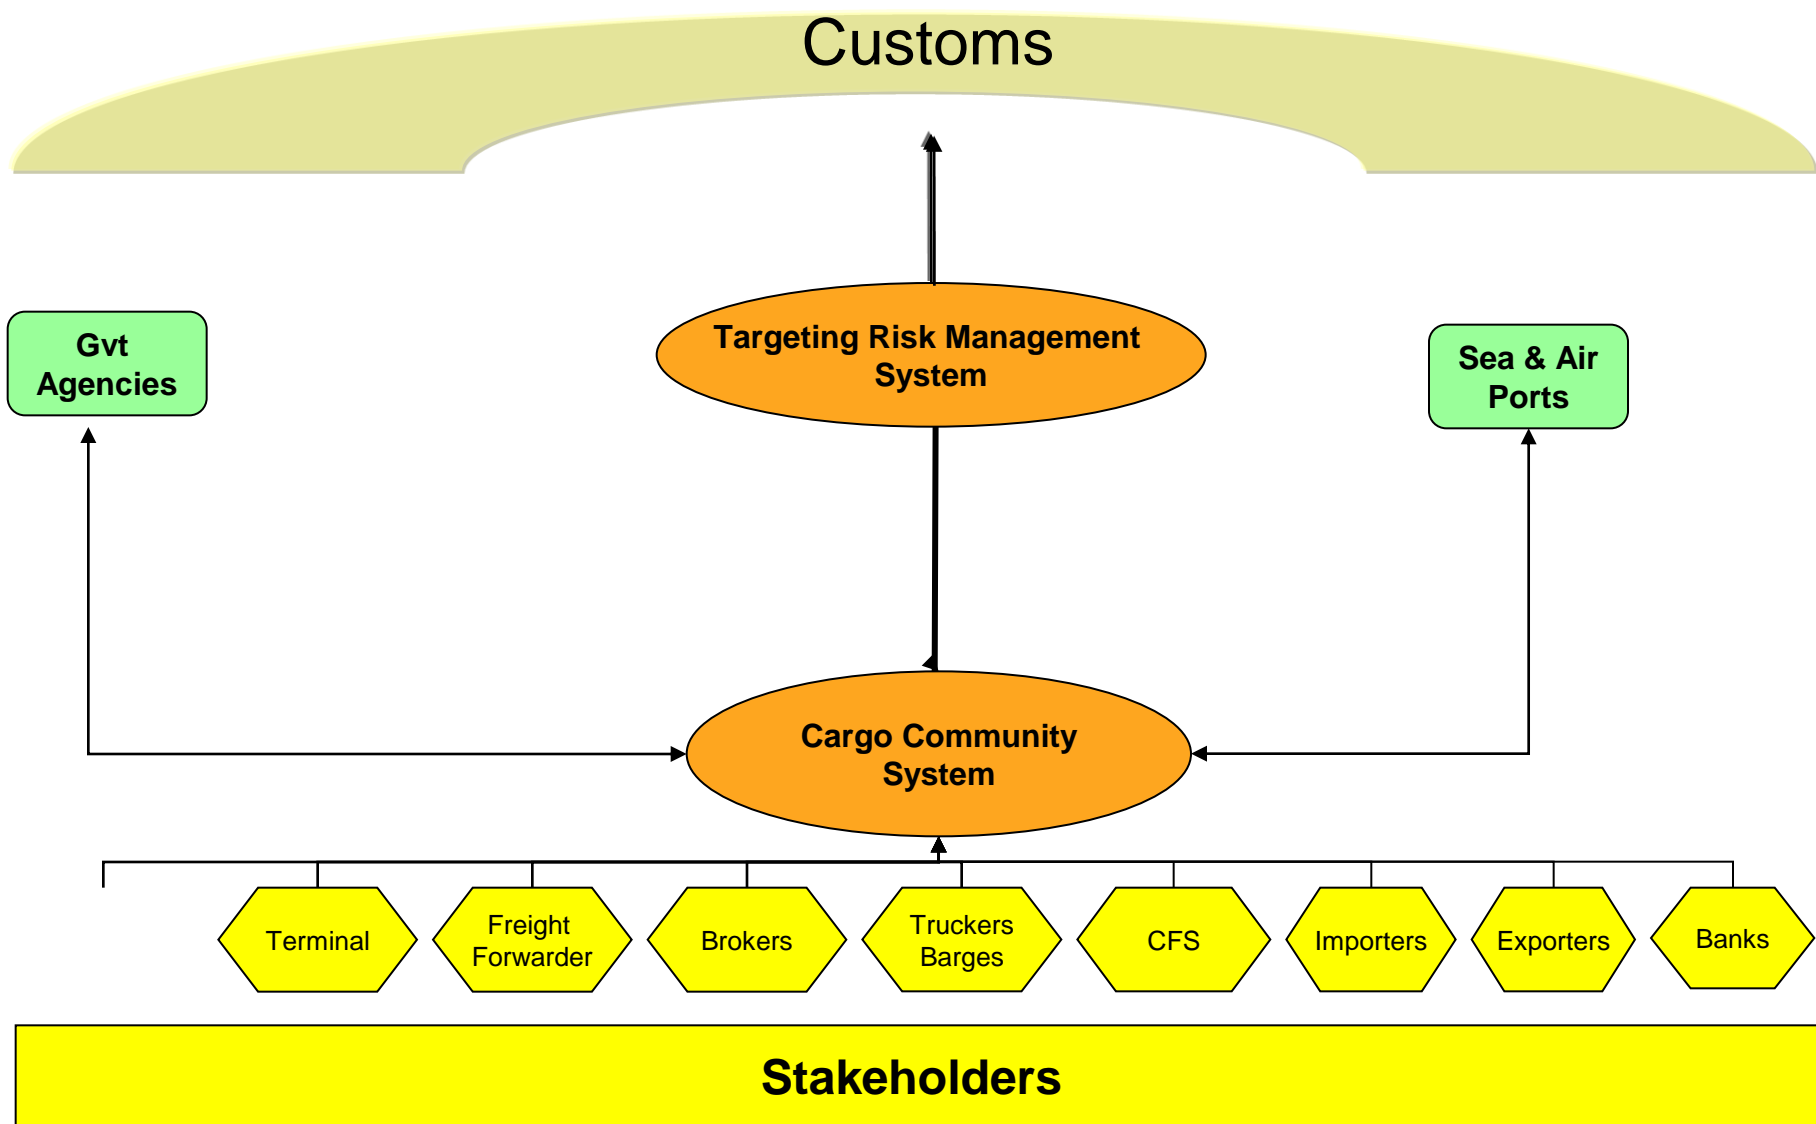

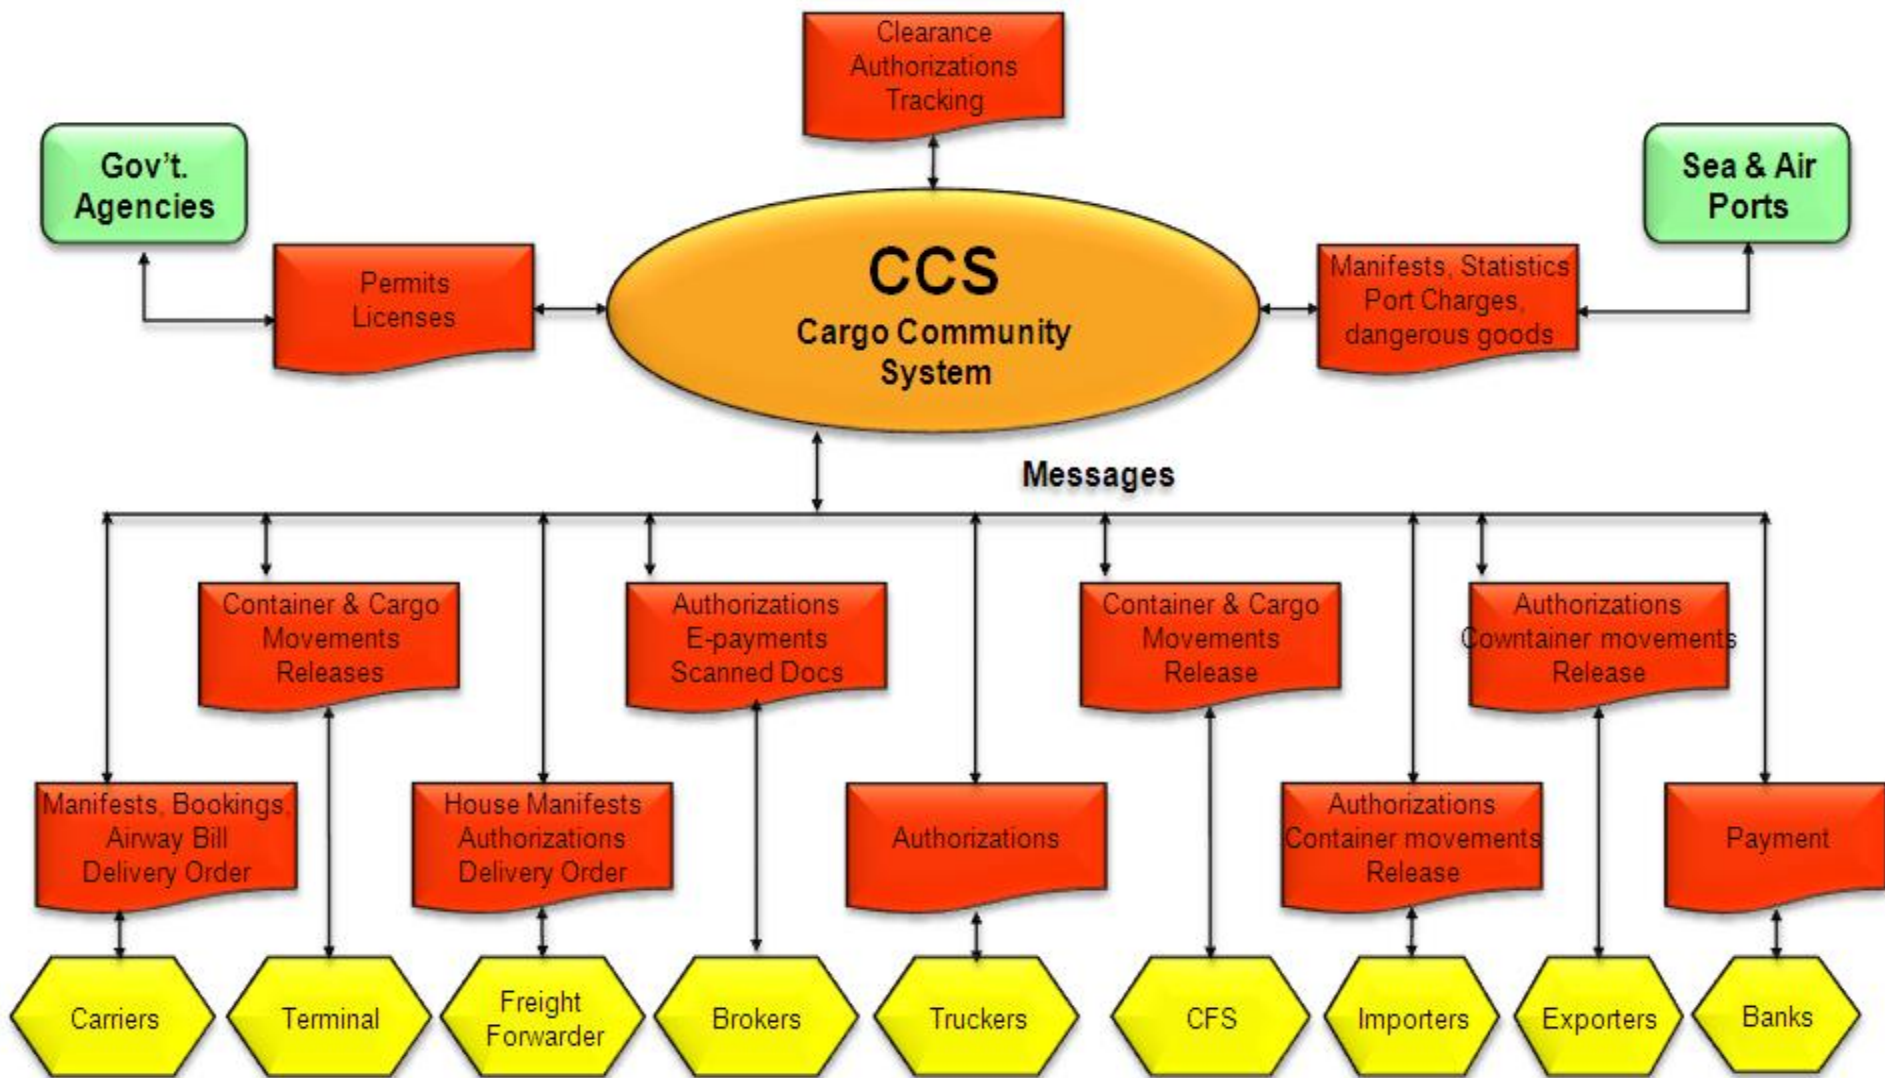

- Freight Forwarders and Brokers
 - Simplified Procedures
 - Time saving
 - Anticipation of procedures
 - HR Valorisation
 - Real time tracking

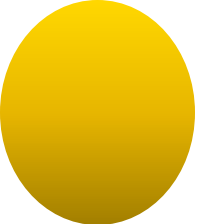

- Truckers
 - No waiting line in front at the Gate
 - Becoming a real player in the logistic chain
 - Paperless preocedures
- Importers / exporters
 - Time saving
 - Optimised logistic chain
 - Tracking possibilities

Thank you !
